Quick Bite: September 14, 2010 Innovations on Business Continuity

11:00 a.m. – 12:00 p.m. EST

Speaker: Michael Crowe CPA, CISSP, CISM

All federally insured credit unions are required by the NCUA to have a written and tested disaster contingency plan. Do you? This program will cover the essential elements of a business continuity plan that you need to address so you can resume business and serve your members. We'll review the key elements of a plan and the essentials of what you need to protect your credit union such as setting up remote teller windows and addressing access to core processing systems. We will cover the key things you need to do to keep your plan current including what to test and how often.

Speaker: Michael Crowe CPA, CISSP, CISM – Partner, Plante & Moran PLLP
Mike has over 20 years of experience in information technology, specializing in information security, technology planning and assessments. He is based in the Chicago office and coordinates the firm's technology practice in Illinois. Mike works with our clients providing technology audits, network security assessments, penetration testing, risk assessments, SAS 70 audits, GLBA compliance reviews, Internet banking reviews, business continuity and disaster recovery planning. Mike frequently presents seminars on information security topics, including presenting at the ICBA and IBA annual meetings. Mike has acquired multiple industry certifications including Certified Information System Security Professional (CISSP), Certified Information Security Manager (CISM) and ITIL Foundation v3.
